

Geriatric South Indian Metabolic Plan

Target: Safe Weight Loss, Insulin Sensitivity & Sarcopenia Defense |
Demographics: Age 60+

CONTROLLED DEFICIT • 1,400–1,550
KCAL

Specialist Directive: "Weight loss after sixty must never mean severe food restriction—it demands low-glycemic satiety, delicate joint-friendly digestion, and rigorous protein pacing to incinerate abdominal fat while shielding skeletal muscle."

1,450

DAILY ENERGY (KCAL)

75–85g

HIGH-BIO PROTEIN (1.2G/KG)

30g+

DIETARY SOLUBLE FIBER

< 1,500mg

TARGET SODIUM LIMIT

Phase I: Days 1 to 4 Geriatric Chart

Day & Track	Breakfast (8:00–8:30 AM)	Mid-Morning (11:00 AM)	Lunch (12:45–1:30 PM)	Evening & Early Dinner (4:30 & 7:30 PM)
Day 1 VEGETARIAN	2 Steamed Oats & Ragi Idlis + generous bowl of Vegetable Sambhar (high drumstick/gourd) + Mint Pachadi.	1 glass spiced buttermilk (Moru with curry leaves, ginger & hing).	0.5 cup Foxtail Millet (Thinai) + Dal Palak (spinach dal, 1 cup) + Cabbage & Carrot Poriyal (1 cup) + Homemade Curd.	Snack: Roasted Chana (handful). Dinner: 1 Whole Wheat Dosa / 2 Phulkas + Lauki (Bottle Gourd) Kootu.
Day 2 NON-VEG	2 Steamed Egg Whites + 1 Soft Idli + Tomato-Onion Sambhar with minimal oil.	1 small cup Papaya or Guava slices (low glycemic index).	0.5 cup Brown Rice + Fish Stew (mild coconut-milk broth with turmeric, 120g seer/promfret) + Kovakkai (Ivy Gourd) fry.	Snack: Clear Pepper Veg Soup. Dinner: 2 Phulkas + Grilled/Pan-seared Chicken breast tender chunks (80g) + Cucumber salad.
Day 3 VEGETARIAN	Vegetable Upma prepared with Broken Wheat (Dalia) & green beans + Coriander Chutney (no coconut).	Boiled Sprouted Moong Sundal (1/2 cup, tempered with mustard & hing).	1 cup Kuthiraivali (Barnyard Millet) + Kollu (Horse Gram) Rasam + Keerai Poriyal (Amaranth leaves) + Skim Curd.	Snack: Warm Cinnamon Water + 4 Walnuts. Dinner: 2 Multi-grain Rotis + Mixed Vegetable Sambar without potatoes.
Day 4 NON-VEG	1 Egg White Vegetable Omelette (mushrooms & spinach) + 1 small Methi Thepla/Phulka.	Chilled Buttermilk with crushed cucumber and roasted jeera.	0.5 cup Matta Rice + Country Chicken Broth / Light Curry (100g soft chicken) + Chow-Chow Kootu + Rasam.	Snack: Steamed Raw Sprouts or Green tea. Dinner: 2 Ragi Rotis + Steamed Fish in banana leaf (Pollichathu, 100g) + Mixed Greens.

Geriatric Digestive Principles (60+)

- Early Dinner Rule:** Complete dinner before 7:30 PM to allow 3 full hours before lying down, preventing GERD and nocturnal reflux common in seniors.
- Gas & Flatulence Mitigation:** Soak all whole pulses and dals for at least 8 hours; always temper with asafoetida (hing), cumin (jeera), and grated ginger.

Phase II: Days 5 to 7 Geriatric Chart

Day & Track	Breakfast (8:00–8:30 AM)	Mid-Morning (11:00 AM)	Lunch (12:45–1:30 PM)	Evening & Early Dinner (4:30 & 7:30 PM)
Day 5 VEGETARIAN	1 Thin Moong Dal Pesarattu + Tomato Chutney + 1 cup mild Skim Milk / Filter Coffee (half sugar).	1 cup Tender Coconut Water (or fresh cucumber slices if diabetic).	0.5 cup Hand-pounded Rice + Sambar + Snake Gourd (Pudalangai) Poriyal + Soya Chunk Curry (light gravy, 50g soya).	Snack: Roasted Makhana (Foxnuts). Dinner: 1 cup Steamed Vegetable Daliya Khichdi + Roasted Appalam + Curd.
Day 6 NON-VEG	2 Steamed Idlis + 2 Poached Egg Whites with black pepper + Sambar.	1 small Apple or Pomegranate cup (with cinnamon powder).	0.5 cup Parboiled Rice + South Indian Fish Curry (tamarind base without coconut milk, 120g) + Keerai Masiyal (mashed greens).	Snack: Warm Ginger-Tulsi Tea. Dinner: 2 Soft Chapathis + Shredded Chicken Pepper Soup / Light Stew + Grated Carrot Salad.
Day 7 HYBRID ROTATION	Semiyya / Vermicelli Upma loaded with diced carrots, beans, and peas + Mint Thuvaial.	Salted Chaas with mint and lime juice.	0.5 cup Red Rice + Lemon Rasam + Bitter Gourd (Pavakkai) stir fry + Tofu/Paneer Bhurji (soft, 60g) + Buttermilk.	Snack: Boiled Peanuts (small portion, 20g). Dinner: 2 Phulkas + Yellow Moong Dal Tadka with Bottle Gourd + Steamed Beans.

Vegetarian Sarcopenia Defense

Preserving muscle without overloading declining renal and digestive capacity:

- **Split Pulses Over Whole:** Prefer yellow moong and split masoor dal over heavy whole beans (rajma, chole) for lunch to ensure gentle assimilation.
- **Low-Fat Curd Base:** Consume 150ml of homemade probiotic curd daily to maintain gut microbiome balance and calcium absorption.
- **Millet Moderation:** Replace refined white polished ponni rice with fiber-dense millets (Little, Foxtail) max 4 times weekly.

Non-Vegetarian Clinical Safety

Cardiovascular protection and purine balance for elderly diners:

- **Red Meat Elimination:** Strictly eliminate mutton, beef, and organ meats to avoid elevating serum uric acid, creatinine, and LDL cholesterol.
- **Skinless Poultry & Fish:** Skinless chicken breast and omega-rich local small fish (sardines/anchovies) provide easily chewable, digestible amino acids.
- **Oil Monitoring:** Limit cooking fat to 2 to 3 teaspoons per day; choose cold-pressed sesame (til) or mustard oil over palm oils.

Mobility & Blood Pressure Adherence

Restrict table salt strictly to **less than 1 level teaspoon (5g total salt / 2,000mg sodium)** daily. Supplement this nutrition plan with **30 minutes of low-impact morning walking** and light resistance band movements. Maintain daily hydration at **2.0 to 2.3 Liters**, avoiding excess fluids after 8:00 PM to mitigate nocturia and ensure restorative sleep.
